## **Property Tax History**

---

Since the beginning of Nebraska's statehood, property tax has been a major source of state and local operating revenue. This tax was initially adopted by the Territorial Legislature in 1857. The growing need for public services and changes in economic structure caused property taxes to steadily increase. This in turn prompted the necessity for relieving property taxes and providing new sources of revenue.

In November 1966, approval of a constitutional amendment abolished "state" property taxes. Also, the Legislature repealed the head and poll taxes, the tax on specific types of intangible property, the tax on household goods, and certain miscellaneous personal property taxes. In order to replace lost revenues, the Legislature adopted two broad-based taxes in the Revenue Act of 1967: the state sales and use tax; and the income tax. In addition to replacing lost state revenue, a portion of the sales and income tax monies were designated to finance state aid programs. At that time, \$35 million was designated annually for aid to school districts. An additional \$10 million each year was distributed to cities and counties to replace lost revenues due to the elimination of intangible property, household goods, and personal effects from the property tax base.

In 1969, the Homestead Exemption Act was passed to provide property tax relief to certain owners of residential property. It provided for an exemption of \$800 of actual value for residences valued at \$4,000 or more. The homestead exemption benefits have changed over the years and currently provide for an exemption of all or part of real property taxes for individuals over 65 with limited income, veterans, and individuals with certain disabilities.

Since 1967, "local" units of government have exclusively levied property taxes. In 2016, Nebraska's local governments levied approximately \$3.904 billion in property taxes. In addition, for fiscal year 2016-2017, approximately \$1.685 billion in local tax relief (state aid) has been appropriated for local governments (see statistical Tables 3B and 3C).

Over the years, the property tax structure in Nebraska has changed as the Legislature has addressed various economic concerns. Property tax remains primarily a tax on real property, but changes have been made in the classification of property, as well as the level of assessment at which property is taxed. [Nebraska's Constitution, Article VIII, Section 1](#), requires uniformity and proportionality both as to the rate and the valuation.

Social and economic trends continue to impact Nebraska citizens' views on all taxes and state aid programs. Meanwhile, the payers and recipients of taxes share in the benefits of public schools, roads, law enforcement, and a number of other public facilities and programs.

## **Summary of Legal/Legislative Actions**

---

### **General Overview**

The Nebraska Constitution, Article VIII, sets out the general principles upon which the property tax system is built. Specifically, section 1, subsection (1), states, “Taxes shall be levied by valuation uniformly and proportionately upon all real property and franchises as defined by the Legislature except as otherwise provided in or permitted by this constitution.” The Constitution further defines different principles for real property and personal property and provides for exemptions and preferential valuations.

### **Real Property**

The Nebraska Constitution, Article VIII, section 1, subsection (1), directs that the property taxes imposed on real property must be based upon valuations that are uniform and proportionate. However, for agricultural and horticultural land, section 1, subsection (4) provides that valuations need not be uniform and proportionate with other classes of real property, but must be uniform and proportionate upon all property within the class of agricultural and horticultural land. Classification changes are addressed in the following sections for agricultural and horticultural land and personal property. The following changes were also made to the level of assessment at which the property is taxed:

- a) For 1920 and prior years, property was assessed at 20% of its actual value;
- b) From 1921 to 1952, property was assessed at its actual value;
- c) From 1953 to 1955, property was assessed at 50% of its actual value;
- d) For 1956 and 1957, property was assessed at 50% of its base value;
- e) From 1958 to 1980, property was assessed at 35% of its actual value;
- f) From 1981 to 1991, property was assessed at 100% of actual value;
- g) From 1992 to 2006, property was assessed at 100% of actual value, with the exception of agricultural and horticultural land which was assessed at 80% of actual value and agricultural and horticultural land receiving special valuation which was assessed at 80% of its special value; and
- h) From 2007 to current, agricultural and horticultural land has been assessed at 75% of actual value and agricultural and horticultural land receiving special valuation has been assessed at 75% of its special value.

### **Agricultural and Horticultural Land**

1972: Constitutional amendment, Article VIII, section 1, subsection (5); Legislature is authorized to enact laws providing for the valuation of land actively devoted to agricultural or horticultural uses based on its agricultural or horticultural use without regard for other purposes and uses. Subsequently, the Legislature authorized special valuation.

1984: *Kearney Convention Center v. Bd. of Equal.*, 216 Neb. 292, 344 N.W.2d 620 (1984). Commercial property owners requested that their valuation be equalized with agricultural and horticultural land which was assessed at a lower level of value.

## **Agricultural and Horticultural Land (continued)**

1984: Constitutional amendment, Article VIII, section 1, subsection (4); agricultural and horticultural land is defined as a separate and distinct class and authorized the use of any different approach to value agricultural and horticultural land.

1985: LB 271, effective for 1986, adopted a method to value agricultural and horticultural land according to a formula based on earning capacity. Income streams were averaged by county and the capitalization rate was fixed in statute. Earning capacity is not similar to the income approach to value as used in professionally accepted appraisal practices.

1987: *Banner County v. State Bd. of Equal.*, 226 Neb. 236, 411 N.W.2d 35 (1987). While the constitution stated that agricultural and horticultural land was a separate and distinct class of property, the constitution still required that all real and tangible personal property values be uniform and proportionate. Using the earning capacity formula to value agricultural and horticultural land would have been allowable if the resulting values had been correlated to be proportionate with all other real and tangible personal property.

1989: LB 361 changed the assessment of agricultural and horticultural land so that the results could be adjusted to be uniform across county lines.

1990: Constitutional amendment was passed that defined agricultural and horticultural land as a separate class of real property and removed from the uniform and proportionate clause, meaning that it need not be uniform and proportionate with other classes of property. However, the values of agricultural and horticultural land must be uniform and proportionate within the class of agricultural and horticultural land.

1991: In response to *Banner County v. State Bd. of Equal.*, LB 404 was passed, which froze agricultural and horticultural values for tax year 1991 at the 1990 value, to give time to respond to the case. LB 320 was also passed, effective for 1992, which changed the assessment of agricultural and horticultural land so that the capitalization rate used to set value is market derived. The capitalization rate was increased 25% so that the resulting values from the income calculation correlate to 80% of market value.

1992: LB 1063 required agricultural and horticultural land to be valued at 80% of actual or market value. All other real property is valued at 100% of actual or market value.

2000: *Bartlett v. Dawes County Bd. of Equal.*, 259 Neb 954, 513 N.W.2d 810 (2000). The Supreme Court ruled that the Tax Equalization & Review Commission could not adjust by market area to achieve inter-county equalization because market areas were not defined as a class or subclass under the statutes.

2001: In response to the Bartlett case, LB 170 provided a definition of class or subclass of real property as a group of properties that share characteristics not shared by those outside the class or subclass. The classification may be based on parcel use, parcel type, location, geographic characteristics, zoning, city size, parcel size, and market characteristics that affect market value.

## **Agricultural and Horticultural Land (continued)**

2002: LB 994 required the Property Tax Administrator to prepare and issue a comprehensive study to determine the level of value of agricultural and horticultural land that is receiving special valuation.

2005: LB 261 eliminated the agricultural and horticultural land valuations boards and the land manual areas beginning January 1, 2006.

2006: LB 808 modified the special valuation (greenbelt) provisions of Nebraska law and made a number of procedural changes, effective January 1, 2007. Generally, the changes narrowed the availability of special value, but the bill also eliminated agricultural zoning as a requirement for special value and phased out the requirements of recapture over three years. Under LB 808, agricultural and horticultural land means that an entire parcel must be primarily used for agricultural or horticultural purposes. Agricultural or horticultural purposes means that the property is used for the commercial production of any plant or animal product in a raw or unprocessed state that is derived from the science and art of agriculture, aquaculture, or horticulture.

2006: LB 968 decreased the assessment percentage for agricultural and horticultural land from 80% to 75% of actual value beginning January 1, 2007.

2008: LB 777 redefined agricultural and horticultural land, effective January 1, 2009. These changes were made in response to issues that developed following the implementation of LB 808 in 2007. LB 777 amended Neb. Rev. Stat. § 77-1359 so that any land associated with any building or enclosed structure located on a parcel will not be considered agricultural and horticultural land. However, the remaining land on the parcel after the exclusion of the land associated with the buildings must be primarily used for agricultural and horticultural purposes in order to be valued as agricultural and horticultural land.

2013: *Krings v. Garfield County Bd. of Equal., Ewald, and Sorensen*, 286 Neb. 352, 835 N.W.2d 750 (2013). The Supreme Court ruled that the constitutional provision requiring equalization between agricultural and horticultural land and other classes of property found in *Kearney Convention Center* and *Banner County v. State Bd. of Equal.* had been changed, and that the class of agricultural and horticultural land must be taxed by valuation uniformly and proportionately within the class of agricultural and horticultural land, but is not required to be uniform and proportionate with the other classes of land.

## **Personal Property**

1967: After the November 1966 vote, which changed the Constitution, the Legislature repealed the head and poll taxes, exempted household goods, clothing and other personal items, and exempted certain types of intangible personal property such as stocks, bonds and certificates of deposit.

1970: A constitutional amendment gave approval to the Legislature to classify and exempt personal property.

## Personal Property (continued)

1972-1974: The Legislature partially exempted from taxation agricultural income-producing machinery and equipment; business inventory; livestock; grain and seed; and poultry, fish and fur-bearing animals. The Legislature provided for a 12.5% exemption of actual value for calendar year 1973. The exemption increased by 12.5% each year until a total of 62.5% was exempt in 1977. Political subdivisions were reimbursed for the tax revenue loss resulting from these exemptions. In 1974, the Nebraska Supreme Court ruled that personal property tax exemptions were constitutional, *Stahmer v. State*, 192 Neb. 63, 218 N.W. 2d 893 (1974).

1977-1981: The Legislature completely exempted from taxation the classes of personal property that had been partially exempted except business inventory and livestock, which were fully exempted in calendar year 1978. The Legislature appropriated \$58.6 million as personal property relief to reimburse local governments for the losses resulting from these exemptions. Business inventories became totally exempt for calendar year 1979 and a reimbursement of \$62.2 million was appropriated for fiscal year 1979-1980. Livestock became totally exempt in calendar year 1980 and a reimbursement of \$70 million was appropriated for fiscal year 1980-1981.

1982: The Legislature eliminated the Personal Property Tax Relief and the Government Subdivision Fund. LB 816 provided for the distribution of aid to community colleges, natural resource districts, incorporated municipalities, counties, and for aid to school districts from the School Foundation and Equalization Fund.

1985: The Employment and Investment Growth Act (LB 775) was enacted by the Legislature and provided new economic development incentives and benefits such as sales tax exemption of manufacturing machinery and equipment, income tax credits, and exemption of personal property tax for qualifying equipment.

1986: Car line companies began requesting that their personal property be equalized with all personal property, *Trailer Train Company v. Leuenberger*, 885 F.2d 415 (8<sup>th</sup> Cir. 1988), *aff'g*, CV87-L-29 (D. Neb. 1987). Citing protection under the 1976 Federal Railroad Revitalization and Regulatory Reform Act (4-R Act), the car line companies argued that since much of the personal property in Nebraska was exempted from taxation by the Legislature (inventory, agricultural machinery and equipment, earth-moving equipment, etc.), their personal property was being taxed to a greater degree than other personal property in Nebraska. The 8<sup>th</sup> Circuit Court of Appeals ruled that the Nebraska property tax on personal property of car companies violated the 4-R Act. The State was prohibited from collecting property tax on car companies.

1987: Railroads filed suit against Nebraska arguing that the property tax on railroad personal property violated the 4-R Act. The litigation was settled in 1989, before reaching trial, resulting in the railroad companies paying tax on 25% of their value attributed to personal property for 1987, 1988, and 1989.

1988: LB 1091 created a one-time appropriation to reimburse local governments for any losses attributable to the railroad's 4-R Act litigation that exceeded 1% of expected property tax dollars. After line item vetoes and partial overrides, the amount appropriated to the fund from the Cash Reserve Fund totaled \$7.7 million.

## Personal Property (continued)

1988-1990: Centrally assessed companies such as pipelines, telecommunications, and airlines appealed to the State Board of Equalization requesting equalization of their personal property with the exempt property of car companies and railroads. The companies were denied by the State Board and appealed to the Nebraska Supreme Court based on the Nebraska constitutional requirement of uniform and proportionate values for the levy of property taxes.

1989: The Nebraska Supreme Court ruled in favor of four pipeline companies for the 1988 tax year, and the State Board equalized their personal property value to zero. In July 1991, the Nebraska Supreme Court ruled on the tax year 1989 equalization requests of centrally assessed companies. The court found that equalization was not an appropriate remedy. All previous personal property exemptions were declared unconstitutional, effectively overturning the 1974 decision allowing personal property exemptions. As a result of the court's decision on the 1989 cases the State Board reduced the 1990 certified values of the appealing centrally assessed companies by 18.81%. *See Northern Natural Gas Co. v. State Bd. of Equal. and Assessment*, 232 Neb. 806 (1988) and *Trailblazer v. State Bd. of Equal. and Assessment*, 232 Neb. 823 (1989).

1991: LB 829 exempted all personal property from property tax for 1991 only and reimbursed local governments for the loss using a series of revenue-raising proposals including a depreciation surcharge, a temporary reduction in the sales tax collection fee, extending the sales tax to manufacturing energy, and a one-year increase in the corporate occupation tax. The total cost was \$120 million.

1992: Constitutional amendment LR 219CA was adopted and removed personal property from the uniform and proportionate clause of the constitution. It authorized personal property to be either taxed on actual value or net book value while allowing reasonable classifications to be exempt, and set apart a classification for the properties of entities that are protected by federal law, such as railroads. The Legislature passed LB 1063 and the "net-book" concept of taxing depreciable tangible personal property was adopted, rather than taxing personal property based on actual value.

1993: The Nebraska Supreme Court ruled on the appeal of the State Board of Equalization and Assessment's action which reduced the 1990 certified values of the appealing centrally assessed companies by 18.81%. The court upheld the State Board of Equalization's remedy which was to refund the difference in tax the appellants would have been required to pay if all of the exempt property in question had been placed on the tax rolls and taxed. *See MAPCO Ammonia Pipeline, Inc. v. State Bd. of Equal. and Assessment*, 242 Neb. 263 (1993).

1994: LB 961 exempted livestock from the personal property tax.

2005: LB 312, the Nebraska Advantage Act, was passed, providing new economic development incentives and replaced Employment and Investment Growth Act (Laws 1985, LB 775). Benefits include sales tax exemption of manufacturing machinery and equipment, income tax credits, and exemption of personal property tax for an investment of at least \$10 million and the hiring of at least 100 new employees. Eligible personal property includes certain aircraft, main frame business computers for business information processing, depreciable personal property used for distribution facilities to store or move products, and depreciable personal property in a single

## Personal Property (continued)

project if the personal property is involved directly in the manufacture or processing of agricultural products.

2007: LB 334 modified definitions to exclude trade fixtures from the definition of real property. Trade fixtures are now defined as personal property.

2008: LB 1027 provided a personal property exemption for agricultural and horticultural machinery and equipment utilized by a qualified beginning farmer or livestock producer in their operation. The beginning farmer must be certified by the Department of Agriculture and apply for the personal property exemption with the county assessor on or before December 31 in the year preceding the exemption. The beginning farmer must file their personal property return on or before May 1, and if the exemption application is approved, the county assessor may exempt taxable agricultural machinery and equipment up to a maximum of \$100,000 in any one year. A properly granted exemption will continue for period of three years if a personal property return is filed on or before May 1 of each year.

2010: LB 1048 exempted property used directly in the generation of electricity using wind as the fuel source from property taxes. Instead of a property tax, wind energy producers will pay a 'nameplate capacity tax' which is a tax of \$3,518 per megawatt or fraction thereof. The Department of Revenue enforces reporting and collecting of the nameplate capacity tax. All proceeds from the nameplate capacity tax are paid to the county treasurer of the county where the facility is located. The county treasurer distributes the proceeds of the nameplate capacity tax using the same allocation formula used to distribute property taxes to the political subdivisions in the tax district(s) in which the wind energy facility is located.

2011: LB 360 modified the original legislation, LB 1048 (passed in 2010), pertaining to wind generation facilities. This legislation exempts depreciable tangible personal property used in the generation of electricity using wind as the fuel source and allows the county assessor to locally assess any real property. The land associated with the facility will continue to be assessed as it was prior to the facility being built. The operative date for this legislation was retroactive to January 1, 2010.

2011: In *Vandenberg v. Butler County*, 281 Neb. 437 (2011), the Nebraska Supreme Court held that an irrigation pump was a trade fixture within the meaning of [Neb. Rev. Stat. § 77-105](#). The application of the three-part test found in *Northern Natural Gas Co. v. State Bd. of Equal. and Assessment*, 232 Neb. 806 (1989), was expressly overruled for taxation purposes. The Court stated that "...[§ 77-105](#) clearly controls the issue of classifications of fixtures for taxation purposes." There are two considerations in determining whether an item of property is a trade fixture: whether it is "machinery or equipment" and whether it "used directly in commercial, manufacturing, or processing activities." The Court also found that agricultural production is a "commercial activity" within the meaning of § 77-105.

2015: LB 259 created the Personal Property Tax Relief Act (Act), codified in [Neb. Rev. Stat. §77-1229](#), which provides for an exemption of the first \$10,000 of tangible personal property value for each tax district in which a personal property return is filed by a taxpayer. Failure to report tangible personal property on the personal property return will result in a forfeiture of the

exemption for any personal property not timely reported for that year. The Act provides an exemption factor for centrally assessed taxpayers. It also provides a reimbursement mechanism for any taxes lost by the county and political subdivisions as a result of the exemption.

## **Other Property “Assessment Structure” Changes**

1995: LB 490, effective for 1996, changed the property assessment calendar so that statewide equalization was completed before property valuation notices are sent to individuals. An individual may then protest his or her property valuation to the county board of equalization.

1995: LB 490, effective for 1996, created the Tax Equalization and Review Commission to replace the State Board of Equalization and Assessment for purposes of equalization of property valuations. In addition to its constitutional statewide equalization duties, the Commission replaced the district court for the purpose of hearing individual appeals from decisions of the Property Tax Administrator, Department of Motor Vehicles, or the county board of equalization involving the valuation and taxation of property. Commissioners are appointed by the Governor and serve six-year terms.

1995: LB 490, effective for 1996, established acceptable ranges for the level of value for each class of property for purposes of the Tax Equalization and Review Commission’s statewide equalization of real property. The acceptable ranges for the level of value were then 74 to 80% of actual value for agricultural land and 92 to 100% for all other real property.

1995: LB 490, effective for 1996, also created the position of Property Tax Administrator as a statutory position to oversee the Property Tax Division of the Department of Revenue. The powers and duties of the Tax Commissioner relating to valuation and taxation of property were transferred to the Property Tax Administrator. The Property Tax Administrator is appointed by the Governor and approved by the Legislature to serve a six-year term.

1997: LB 269, effective July 1, 1998, gave the county board authority to vote by resolution to have the Property Tax Administrator assume the county assessment function. The state would become fiscally responsible for the assessment functions in that county. The county assessor and employees of the assessor’s office in those counties became state employees. Currently, nine out of 93 counties have turned the assessment function over to the state.

1998: LR 45CA placed four separate constitutional amendments on the 1998 general election ballot as follows: (1) strike the requirements that motor vehicle taxes be distributed to local governments in proportion to property taxes levied, (2) provide for the merger or consolidation of cities and counties, (3) limit the property tax exemption for government property to property used for a public purpose, and (4) strike all references to townships in the Constitution. The first three amendments succeeded while the fourth failed.

1999: LB 36, 1999 First Special Session, made the former Property Tax Division of the Department of Revenue a separate agency called the Department of Property Assessment and Taxation, directed by the Property Tax Administrator.

## Other Property “Assessment Structure” Changes (continued)

2001: LB 271 passed in 1999 and implementation was delayed until 2001. Beginning January 1, 2001, property of the state and its governmental subdivisions that is not used or not being developed for a public purpose is taxable, based on Constitutional Amendment to Article VIII, section 2, subsection (1). Previously, all governmentally owned property, no matter how used, was exempt from property taxation.

2003: Following the implementation of LB 271, a number of political subdivisions took issue with the taxation of property and appealed the taxability of certain governmentally owned property. In 2003, both the Nebraska Supreme Court and Nebraska Court of Appeals issued decisions on this issue. See, *City of Alliance v. Box Butte Cty. Bd. of Equal.*, 265 Neb. 262 (2003), *Brown Cty. Ag. Society v. Brown Cty. Bd. of Equal.*, 11 Neb. App. 642 (2003), *City of York v. York Cty. Bd. of Equal.*, 266 Neb. 297 (2003) [York I], *City of York v. York Cty. Bd. of Equal.*, 266 Neb. 305 (2003) [York II], and *City of York v. York Cty. Bd. of Equal.*, 266 Neb. 311 (2003) [York III]. Although each case deals with a separate factual situation, it appears that the courts have taken a fairly expansive view of what constitutes a “public purpose” under LB 271. If, for example, the political subdivision is authorized to use its property in a particular way, that use constitutes a public purpose for the purposes of being exempt from property taxes, even if the property is also being used for an ongoing nonpublic use. Further, if a public purpose is advanced by the ownership of the property by the political subdivision, that use will be deemed to be predominant, even if there is another, ongoing nonpublic use being made of the property. The courts did not specifically address the question of whether the mere generation of proceeds for the political subdivision through the use of its property would be sufficient to maintain the exempt status of the property.

2005: LB 66 passed which provides for a valuation preference rather than a complete exemption for historically significant real property that has been renovated or rehabilitated. The law limits the preference to properties deemed “historically significant” as opposed to any real property over a certain age. There is an application and approval process with the State Historical Preservation Officer (SHPO) for the real property to be deemed historically significant and revolves around the National Register of Historic Places. A “preliminary certificate” must be obtained and is the step that sets the “base value” for the property. When the work on the real property is complete, a certificate of rehabilitation is issued and the property is to be assessed at no more than its base value for eight years. In years 9-11, market value is increased incrementally until at the beginning of year 12, the value for the property is at actual value. The valuation benefit only applies to real property for which a final certificate of rehabilitation has been issued (by the SHPO) after January 1, 2006.

2006: LB 968 decreased the assessment percentage for agricultural and horticultural land from 80% to 75% of actual value beginning January 1, 2007. For purposes of the Tax Equalization and Review Commission’s statewide equalization of agricultural and horticultural land, the acceptable range for the level of value was changed to a range of 69% to 75%.

2007: LB 334 merged the Department of Property Assessment and Taxation with the Department of Revenue and established a Property Assessment Division. The legislation amended more than 150 sections of statutes to strike references to the former “Department of Property Assessment

and Taxation” and “Property Tax Administrator” and replaced them with references to the “Department of Revenue” and “Tax Commissioner.” The Property Assessment Division is directed by the Property Tax Administrator, who is appointed by the Governor, with the approval of a majority of members of the legislature. The Property Tax Administrator serves under the general supervision of the Tax Commissioner.

2007: LB 334 also required county assessors to review properties on a cycle to assure that all parcels have been inspected and reviewed at least once every six years.

2008: LB 965 amended [Neb. Rev. Stat. § 76-214](#) so that beginning January 1, 2009, the Real Estate Transfer Statement, Form 521, became a single part form, rather than a multi-part form. The Real Estate Transfer Statement, Form 521, is required to be filed with the Register of Deeds when a deed to real estate, memorandum of contract, or land contract is presented for recording.

2009: LB 121 returned the nine state assessment offices back to the counties. All counties were returned by June 30, 2013.

2011: LB 384 requires county assessors in counties with over 150,000 inhabitants to conduct preliminary hearings with the taxpayer regarding the assessed valuations on their real property, beginning in tax year 2014. This legislation also reduced the number of commissioners on the Tax Equalization and Review Commission from four to three.

2012: LB 902 amended [Neb. Rev. Stat. § 77-202\(1\)](#) to exempt any property beneficially owned by a governmental unit and used for a public purpose from property tax if the property purchased is subject to a lease-purchase agreement, financing lease, or other instrument which transfers title of the property to the governmental unit upon payment of the debt used to finance the project. The purchase may be subject to property tax if the acquisition cost of the property exceeds the greater of 0.06% of the total actual value of real and personal property of the governmental unit or \$50,000, and the acquisition is not approved by a vote of the people that reside within the governmental unit in which the property is located.

2013: *KAAPA Ethanol v. Bd. of Supervisors of Kearney Cty.*, 285 Neb. 112, 825 N.W.2d 761 (2013). A taxpayer’s decision to list real property as personal property, while yielding “the harsh result of double taxation,” is the result of a mistake of law. The refund claim statute is a codification of the common-law rule that refunds of taxes levied upon and paid are only authorized with respect to mistakes of fact.

2015: LB 356 Established the Rent-Restricted Housing Projects Valuation Committee (Committee) and requires the use of the income approach in valuing rent-restricted housing projects, which are projects consisting of five or more houses or residential units receiving an allocation of federal low-income housing tax credits under Section 42 of the Internal Revenue Code. The Committee develops a market-derived capitalization rate to be used by county assessors when using the income approach to value rent-restricted housing projects. The Committee may determine a different capitalization rate for different areas of the state if it is deemed appropriate. The owner of a rent-restricted housing project must file an income and expense statement with both the Committee and the county assessor on or before October 1 of

each year. If the statement is not timely filed, the county assessor may use any professionally accepted mass appraisal technique for determining actual value of the property. If actual value is not achieved using the income approach, the county assessor may present these findings to the county board of equalization, which may petition the Tax Equalization and Review Commission (Commission) no later than January 31 of each year for use of another professional accepted mass appraisal technique in determining actual value. The Tax Commissioner may also file a similar petition with the Commission.

2015: LB 414 Fraternal Benefit Societies, as organized and licensed under Neb. Rev. Stat. §§ 44-1072 to 44-10,109, are included in the definition of “charitable organization.” Such organizations are exempt from property taxes pursuant to Neb. Rev. Stat. § 77-202.

## **Other Property “Tax Policy” Changes**

1999: LB 881 (tax credit for 2000) also provided \$25 million for the Relief to Property Taxpayers Act. The Act provided direct local property tax relief to all taxable real property owners in the form of a tax credit that is displayed on the tax statement. The credit, for year 2000, provided \$30.54 in property tax relief for every \$100,000 in taxable value. In other words, for every \$100,000 in taxable value, the state will pay the local taxing subdivisions \$30.54 that otherwise would have been collected from the taxpayer. Due to state budget constraints, the Legislature did not appropriate any monies to the Relief to Property Taxpayers Act in 2001 and subsequently repealed the Act in 2002.

2006: Effective June 15, 2006, in accordance with final orders issued pursuant to LB 126 (2005), all Class I school districts (elementary grades only) and Class VI high school districts (high school grades only) were dissolved and merged into school systems that offer kindergarten through grade 12. Nebraska’s approximate 469 individual base school districts decreased to 254 school systems for 2006. This legislation was repealed by voters in the 2006 November election but it did not automatically reinstate the school districts as they existed prior to implementation of LB 126. Instead, the 2007 legislative session provided the enabling statutory language for Class I or Class VI schools to exist or be created again.

2007: LB 367 created the Property Tax Credit Act, codified in [Neb. Rev. Stat. § 77-4209](#), which provides direct local property tax relief to all taxable real property owners in the form of a tax credit that is displayed on the tax statement. The real property tax credit is based upon the valuation of each parcel of real property compared to the valuation of all real property in the state. The total amount of credit available for statewide distribution is \$105 million for year 2007 and \$115 million for year 2008. The credit, for year 2007, provided \$83.22 in property tax relief for every \$100,000 in taxable value. In other words, for every \$100,000 in taxable value, the state pays the local taxing subdivisions \$83.22 that otherwise would have been collected from the taxpayer.

2009: LB 315 funded the Property Tax Credit Act for two additional years. The total amount of credit available for statewide distribution was \$115 million for 2009 and \$115 million for 2010.

2011: LB 374 funded the Property Tax Credit Act for two additional years. The total amount of credit available for statewide distribution was \$115 million for 2011 and \$115 million for 2012.

## **Other Property “Tax Policy” Changes (continued)**

2013: LB 195 funded the Property Tax Credit Act for two additional years. The total amount of credit available for statewide distribution was \$115 million for 2013 and \$115 million for 2014.

2014: LB 905 provided an additional \$25 million for two additional years. The total amount of credit available for statewide distribution was \$140 million for 2013 and \$140 million for 2014.

2015: LB 657 provided property tax relief in the amount of \$204 million for tax years 2015 and 2016.

2016: LB 958 provided an additional \$20 million of funding for the property tax relief fund for a total of \$224 million for tax year 2017. It also changed the calculation of the credit so that the credit will be allocated as if agricultural and horticultural land, and agricultural and horticultural land receiving special valuation, were valued at 120% of their taxable value.

## **School Adjusted Value**

1994: LB 1290 required the adjusted value or full assessable property valuations to be determined for each school district, by the Property Assessment Division, for use in the school aid formula. This provision "levels the playing field" and prevents a school district from receiving an unfair advantage in the school aid formula if their property valuations are at a lower level than other school districts.

2006: LB 968 changed the required level of assessment for agricultural and horticultural land from 80% to 75% of actual value for purposes of the 2006 school adjusted value, which is used in calculating school aid for 2007-2008. This change was intended to make the agricultural and horticultural land value used in the 2007-2008 school aid formula consistent with the “assessed” value of agricultural and horticultural land in 2007 which moves to 75% of actual value.

2008: LB 988 amended [Neb. Rev. Stat. § 79-1016](#), changing the required level of assessment for purposes of “adjusted value” used in the state’s school aid formula. The Property Tax Administrator is required to adjust the taxable value of each school district so that: 1) all real property, other than agricultural and horticultural land, is adjusted to 96% (*instead of 100%*) of actual value; and 2) all agricultural and horticultural land is adjusted to 72% (*instead of 75%*) of actual value, and all agricultural and horticultural land that receives special valuation pursuant to [Neb. Rev. Stat. § 77-1344](#) is adjusted to 72% (*instead of 75%*) of the value of the land for its agricultural or horticultural purposes only.

## **Motor Vehicles**

1997: LB 271 changed the method for taxation of motor vehicles to a uniform, statewide tax and fee system rather than according to value. The fee is a nominal amount, generally between \$5 and \$30 and the proceeds are distributed to cities and counties based on the Highway Trust Fund dollars. The motor vehicle tax is determined from a table that begins with the manufacturer’s suggested retail price (MSRP) and declines each year thereafter, using a table found in state law.

## **Motor Vehicles (continued)**

Responsibility for motor vehicle taxation was shifted from the county assessor to the county treasurer.

1998: LR 45CA amended the constitution, eliminating the requirement that motor vehicle taxes be distributed to local governments in proportion to property taxes levied.

1999: LB 142 implemented part of LR 45CA by providing that the proceeds from the motor vehicle tax be distributed 60% to the school district where the vehicle is registered, 22% to the county, and 18% to the city except in Douglas County where the city-county shares are reversed.

## **Homestead Exemption**

1969: The Homestead Exemption Act was created by the Legislature to provide direct property tax relief to individual owners of residential property. This law, with some exceptions, provided for an exemption of \$800 of actual value for residences valued at \$4,000 or more. A homestead is defined as a residence, and the land surrounding, not to exceed one acre. To qualify, the homestead must be occupied by the owner of record on January 1 of the year for which application for exemption is made. The exemption applies to all or part of the local property taxes levied against the home, with the state reimbursing local governments from general fund revenues for the taxes exempted under the program. In 1971 and 1973, the legislature increased the benefits of the homestead exemption for specific categories of veterans, disabled, and elderly homeowners with limited income.

1983: LB 396 eliminated a general homestead exemption that exempted the first \$800 of value of a homestead valued at \$4,000 or more. The cost savings was \$4.7 million.

1984: LB 809 adopted a general homestead exemption of \$3,000 and required property tax statements to reflect that the state was financing the exemptions. This was estimated to cost about \$18 million. However, the program was delayed and then repealed after one year, never having been implemented.

1986: LB 1268 provided for a sliding scale for homestead exemption benefits for elderly and disabled beneficiaries as income increased.

1988: LB 1105 eliminated the sliding scale of benefits for homestead exemptions and provided that those with income below the filing threshold of \$10,400 received the full \$35,000 exemption.

1989: LB 84 granted an 8.5% reduction in property valuation, or a \$5,400 general homestead exemption for 1989 only; this reduction was financed by the state. Total cost was \$114 million.

1994: LB 802 enacted significant changes to the homestead exemption program: redefined household income, increased the amount of exemption, required the filing of an income statement, placed limits on the value of the home for which an exemption application is made, and implemented a sliding scale that allows partial exemption as income increase. Overall, these changes were revenue neutral.

## **Homestead Exemption (continued)**

1999: LB 179 increased the homestead exemption income eligibility amounts and expanded the definition of disability for purposes of eligibility. The cost of the expansion was \$8.8 million.

2004: LB 986 changed the definition of multiple amputees for certain veterans eligible for exemption for applications filed in 2004 and after.

2006: LB 968 made changes to increase the benefits available under the homestead exemption program, effective for 2007. The exempt amount was increased from the greater of \$40,000 or 80% to the greater of \$40,000 or 100% of the average residential home value in the county. For disabled veteran beneficiaries, the exempt amount increased from the greater of \$50,000 or 100% to the greater of \$50,000 or 120% of the average residential home value. The maximum value also increased from \$95,000 or 150% to \$95,000 or 200% of the average residential home value. The maximum value for handicapped and veteran claimants also increased a comparable amount.

2009: LB 94 made changes to allow applicants for the homestead exemption to file an application or certification up until the first half real estate taxes become delinquent if they missed the June 30 filing dates because of a medical condition.

2009: LB 302 made changes to allow the homestead exemption claimant to transfer a homestead exemption to a new homestead without having to sell the original homestead.

2014: LB 986 increased income eligibility amounts for the homestead exemption program for tax years on or after 2014. Beginning January 1, 2015, homeowners with developmental disabilities are eligible for the homestead exemption. Applicants must provide certification from the Nebraska Department of Health and Human Services regarding their developmental disabilities.

2014: LB 1027 Beginning January 1, 2015, a disabled veteran with a 100% service-connected disability, and drawing compensation from the U.S. Department of Veterans Affairs, or the unremarried widow or widower of this veteran, is eligible for a 100% homestead exemption regardless of income or homestead value. An unremarried widow or widower of any veteran who died because of a service-connected disability is also eligible for the homestead exemption regardless of income or homestead value. A certification of the status of the veteran or widow(er) must be provided by the U.S. Department of Veterans Affairs when applying for the exemption.

2015: LB 591 Beginning January 1, 2016, the definition of household income for homestead exemption includes any carryforward of a net operating loss when deducted for federal income tax purposes.

2016: LB 683 Beginning January 1, 2017, the homestead exemption statutes were amended to allow a surviving spouse of a qualified veteran, who remarries after attaining the age of 57 years, to qualify.

## Documentary Stamp Tax

All transfers of beneficial interest in, or legal title to, real estate are subject to a documentary stamp tax based upon the value of the real estate transferred. The tax is due at the time the deed is offered for recording unless specifically exempt pursuant to Neb. Rev. Stat. § 76-902.

1965: Chapter 463, established the documentary stamp tax. The tax is collected by the register of deeds and remitted to the Department of Revenue. The initial rate was \$0.55 per each \$500 of value or fraction thereof. The register of deeds retained 25% of the proceeds of the sale of stamps to be placed into the county general fund.

1985: LB 236 raised the rate to \$1.50 per each \$1,000 of value or fraction thereof. The register of deeds retained 33.33% of the proceeds of the sale of stamps to be placed into the county general fund.

1992: LB 1192 raised the rate to \$1.75 per each \$1,000 of value or fraction thereof. The register of deeds retained \$0.50 from each \$1.75 collected to be placed into the county general fund.

2005: LB 40 raised the rate to \$2.25 per each \$1,000 of value or fraction thereof. The register of deeds retains \$0.50 from each \$2.25 collected to be placed into the county general fund. For each remaining \$1.75 remitted to the state, \$0.25 is credited to the Homeless Shelter Assistance Trust Fund, \$1.20 is credited to the Affordable Housing Trust Fund, and \$0.30 is credited to the Behavioral Health Services Fund.

2012: LB 536 amended [Neb. Rev. Stat. § 76-902](#) to provide additional documentary stamp tax exemptions. Deeds between ex-spouses that convey any rights to property acquired or held during the marriage, death deeds and revocations of death deeds, and certified or authenticated death certificates pertaining to death deeds are now exempt from documentary stamp tax.

## **Administration of Property Assessment & Taxation**

---

All property in the State of Nebraska is subject to property tax unless an exemption is mandated by the Nebraska Constitution, Article VIII, or is permitted by the Constitution and enabling legislation is adopted by the Legislature. Federal law may supersede the Nebraska Constitution with regard to taxation of property owned by the federal government or its agencies or instrumentalities. All property in the State of Nebraska subject to taxation must be valued as of January 1, 12:01 a.m., of each year.

The county assessor is responsible for valuing all real and personal property with the exception of railroads, public service entities, and specific personal property of air carrier and rail car line companies, which are assessed by the Property Tax Administrator.

The valuation of real property is determined according to professionally accepted mass appraisal techniques, including but not limited to the following: (1) comparing sales of properties with known or recognized values, taking into account location, zoning, and current functional use (also known as the sales comparison approach); (2) the income approach; and (3) the cost approach. The valuation of personal property is determined using a statutory method of depreciated values similar to the federal Modified Accelerated Cost Recovery System and 150% declining balance depreciation schedules.

All real property is assessed at or near 100% of actual value, except agricultural and horticultural land which is assessed at or near 75% of actual value. Agricultural and horticultural land receiving special valuation pursuant to [Neb. Rev. Stat. § 77-1344](#) is assessed at 75% of its special value which is the uninfluenced value of the land for agricultural and horticultural purposes. Personal property is assessed at 100% of the net book taxable value as determined by the statutory method.

“Permissive” exemptions are allowed for property owned by certain organizations such as religious, charitable, educational, and agricultural societies pursuant to [Neb. Rev. Stat. § 77-202](#). The organization must file an application for exemption of real and/or personal property. The county assessor recommends approval or denial to the county board of equalization which meets to make a final decision regarding the application for exemption.

There is an exemption for certain business personal property belonging to qualifying companies under Nebraska’s tax incentive programs - the Employment and Investment Growth Act and the Nebraska Advantage Act.

The tangible personal property used directly in the generation of electricity using wind as the fuel source is exempt from property tax and subject to the nameplate capacity tax. The tangible personal property used directly in the generation of electricity using solar, biomass, or landfill gas is exempt from property tax if the depreciable tangible personal property was installed on or after January 1, 2016, and has a nameplate capacity of 100 kilowatts or more.

Any tangible personal property purchased by a person operating a data center located in Nebraska, which is then incorporated into other tangible personal property for subsequent use outside the state by the same person operating a data center in this state, is exempt from the personal property tax.

There is an exemption for certain personal property belonging to qualified beginning farmers or livestock producers, pursuant to [Neb. Rev. Stat. § 77-5209.02](#) of the Beginning Farmer Act.

There is an exemption for either a mobile home or motor vehicle of any veteran of the United States Armed Forces who was honorably discharged and has a service-connected disability. See [Exemption Application, Form 453](#).

For individuals, the homestead exemption program is designed to provide local property tax relief to qualifying elderly individuals, certain disabled veterans, and certain disabled individuals and their widowers who own and live in the home for which an exemption application is made. The exemption applies to all or part of the property taxes levied against the home, with the state reimbursing local governments from general fund revenues for those taxes exempted under the program.

The Property Tax Credit Act provides a real property tax credit based on the valuation of each parcel of real property compared to the valuation of all real property in the state. The tax credit amount varies each year depending on appropriation and value. In 2016, the real property tax credit was approximately \$89 per \$100,000 of value. Beginning 2017, the tax credit will allocate more of the funds to agricultural and horticultural land as if it were valued at 120% of actual value.

The Personal Property Tax Relief Act (Act), beginning in 2016, provides for an exemption of the first \$10,000 of tangible personal property value for each tax district in which a personal property return is filed by a taxpayer. Failure to report tangible personal property on the personal property return results in a forfeiture of the exemption for any personal property not timely reported for that year. The Act provides an exemption factor for centrally assessed taxpayers. It also provides a reimbursement mechanism for any taxes lost by the county and political subdivisions as a result of the exemption.

Between January 1 and March 19 of each year, the county assessor updates and revises the real property assessment roll. In counties with a population of at least 150,000, the county assessor must provide preliminary valuation change notices by January 15, conduct informal meetings with property owners, and complete the assessment roll by March 25. Each year between early April and May 15, the Tax Equalization and Review Commission (Commission) has the authority to adjust the valuation of classes or subclasses of real property in any county in order to achieve equalization of property values. Decisions of the Commission may be appealed to the Nebraska Court of Appeals.

The county assessor revises the real property assessment rolls for any orders issued by the Commission and notifies property owners of value increases or decreases by June 1. Individual protests of real property valuations may be made to the county board of equalization. The county board of equalization may adjust the protested value of individual properties. Decisions of the county board of equalization may be appealed to the Commission.

Personal property is self-reported by the taxpayer on or before May 1. If the county assessor makes changes to the reported valuation, a notice must be sent to the taxpayer. The action may be appealed to the county board of equalization.

On or before August 10, the Commission must equalize the real property of centrally assessed railroad and public service companies with the statewide level of assessment. The Property Tax Administrator certifies centrally assessed values to the counties.

On or before August 20, the county assessor compiles and certifies the total taxable value (real, personal, and centrally assessed) to each local government taxing subdivision for rate setting purposes.

Each year, on or before October 15, the county board of equalization levies the necessary taxes, within the limits of the law, for operation of all functions of county government, school districts, cities, etc. The tax rates for these various local government taxing subdivisions are determined by dividing the subdivision's annual tax request by the current total taxable value within their boundaries. The tax rates are expressed as \$1 per \$100 dollars of taxable value.

Property taxes are determined by multiplying the property's taxable value by the total consolidated tax rate for the tax district in which the property is located. The tax district is comprised of various governing bodies empowered to levy property taxes for services, such as county government, school district, city, etc.

On or before November 22, the county assessor transcribes the real property tax list and delivers it to the county treasurer for collection of property taxes. All real and personal property taxes, including taxes of centrally assessed railroad and public service companies, are due on December 31. The first half of the tax becomes delinquent on the following May 1 and the second half becomes delinquent on September 1, except in Douglas, Lancaster, and Sarpy counties, where the first half is delinquent on April 1 and second half becomes delinquent on August 1.

## Statistical Tables

### Notes Regarding Statistical Tables

1. The data sources for the statistical tables are the Certificate of Taxes Levied Report and the County Abstract of Assessment Report.
2. Property taxes levied includes homestead exemption tax loss.
3. Property taxes levied excludes taxes levied on redevelopment or enhanced value of community redevelopment projects using tax increment financing (TIF). See annual reports to the Legislature for [Community Redevelopment Tax Increment Financing Projects](#).
4. The state total valuations and property taxes levied for the years 1967 through current are listed in Table 1. Tax policy changes that affect the valuation or tax are explained in a previous section of the annual report, for example, as of 1997 motor vehicles are no longer taxed based on a value. Also listed in Table 1 are the state total property tax amounts, mill levies, and average statewide property tax rates for applicable years. Payments in lieu of tax made by public power districts and other in lieu of tax payments are not included in total taxes.
5. Assessment levels for property:
  - For 1920 and prior years, property was assessed at 20% of its actual value;
  - From 1921 to 1952, property was assessed at its actual value;
  - From 1953 to 1955 property was assessed at 50% of its actual value;
  - In 1956 and 1957 property was assessed at 50% of its base value;
  - From 1958 to 1980 property was assessed at 35% of its actual value;
  - From 1981 to 1991 property was assessed at 100% of actual value;
  - From 1992 to 2006 property was assessed at 100% of actual value, with the exception of agricultural and horticultural land which was assessed at 80% of actual value; and
  - From 2007 to current, agricultural and horticultural land was assessed at 75% of actual value.
6. Example. In years 1967 to 1980, tax rates were expressed as mills per \$1,000 of value.

Property market value	100,000
Assessment level	x 35%
Assessed value	<u>35,000</u>

Mill levy of 55.925	
or 55.925/1,000	x .055925
Calculated Taxes	<u>\$ 1,957.38</u>

7. Example. In years 1981 to current, tax rates are expressed as rates per \$100 of value.

Property market value	100,000
Assessment level	$\times \frac{100\%}{100,000}$
Assessed value	100,000

Tax Rate of 1.9574	
or 1.9574/100	$\times .019574$
Calculated Taxes	\$1,957.40

8. Example. Converting a mill levy to a tax rate.

Mill levy	55.925
Assessment level	$\times \frac{35\%}{100}$
	19.574
Divide result by 10	$\div 10$
To convert to a tax rate	1.9574

9. In Lieu of Taxes. In Nebraska, every public corporation and political subdivision of the state that is primarily organized to provide electricity or irrigation, and which sells electricity at retail to incorporated cities and villages, makes payments in lieu of property taxes, see Table 21A. The payments are equivalent to 5% of the gross revenue derived by the power district, plus a fixed amount based on the 1957 levies. Other in lieu of taxes are also reported for game and parks wild-life preserve, housing authorities, hospitals, and community redevelopment authorities, see Table 21B.

10. Bond taxes refers to property taxes levied for payment of principal or interest on bonds issued by the political subdivisions. Non-bond taxes refers to property taxes levied for all other purposes.

### Definitions of Property Type Categories in the Statistical Tables

**Agricultural farm home site** means land that is contiguous to a farm site which includes an inhabitable residence and improvements used for residential purposes, and which is located outside of urban areas or outside a platted and zoned subdivision. *For purposes of summarizing data, the farm residences and farm home site land are included with residential property sector.*

**Agricultural farm site land** means the portion of land containing improvements that are agricultural or horticultural in nature, including any uninhabitable or unimproved farm home site, all of which is contiguous to agricultural or horticultural land.

**Agricultural or horticultural land** means a parcel of land which is primarily used for agricultural or horticultural purposes, excluding land associated with a building or enclosed structure located on the parcel. Agricultural or horticultural purposes means used for the commercial production of any plant or animal product in a raw or unprocessed state that is derived from the science and art of agriculture, aquaculture, or horticulture.

**Exempt** means real property that receives an exemption from property tax, for example, governmentally exempt or permissive exemptions such as religious, charitable, educational, etc.

**Centrally assessed** means operating property valued by the state for property tax purposes. The centrally-assessed property information in the statistical tables of this report reflects operating property of railroads and public service entities, except for Table 22 which reflects data for car line companies and air carriers.

**Commercial** means all parcels of real property predominantly used or intended to be used for commerce, trade, or business. For purposes of reporting, multi-family dwellings predominantly used for occupancy by more than two families, are summarized with the commercial property type.

**Industrial** means all parcels of real property predominantly used or intended to be used for the process or manufacture of goods or materials.

**Mineral interests** means the ownership interest of mines, minerals, quarries, mineral springs, overriding royalty interest and production payments with respect to oil and gas leases. The minerals category includes both producing and non-producing interests.

**Personal property** means depreciable tangible personal property which is used in a trade or business or used for the production of income and which has a determinable life of longer than one year. Personal property net book value is determined pursuant to Nebraska's statutorily defined adjusted basis multiplied by the appropriate depreciation factor.

**Recreational** means all parcels of real property predominantly used or intended to be used for diversion, entertainment, and relaxation on an occasional basis. Some of the uses would include fishing, hunting, camping, boating, hiking, picnicking, and the access or view that simply allows relaxation, diversion and entertainment.

**Residential single family** means all parcels of real property predominantly used or intended to be used as a dwelling place or abode whether occupied by the owner, tenant or lessee, and where occupancy is for a period of time usually year-round as opposed to a transitory occupancy by a single family or two families.

General Notes:

- For over-age 65 applicants to be eligible for exemption, the maximum assessed value of the homestead is \$95,000 or 200% of the county's average assessed value of single-family residential property, whichever is greater.
- For most disabled applicants to be eligible for exemption, the maximum assessed value of the homestead is \$110,000 or 225% of the county's average assessed value of single-family residential property, whichever is greater.
- The qualification for homestead exemption in assessment/tax year 2016 relies on income data from 2015; the percentage of relief applies to the assessed value of the homestead up to the maximum exemption amount.
- For over-age 65 applicants, the maximum exemption is the taxable value of the homestead up to \$40,000 or 100% of the county's average assessed value of single-family residential property, whichever is greater.
- For most disabled applicants, the maximum exemption is the taxable value of the homestead up to \$50,000 or 120% of the county's average assessed value of single-family residential property, whichever is greater.
